Money was easier, and loaned in large amounts at 4 per gent on Governments, and from 5 to 7 per centon railway shares. At the close of business balances were freely offered at 5 per cent on stocks. This unnatural and unhealthy case at this season of the year reflects the prostration of speculative movements in Wall-st., and the stagnation of trade at the West. The receipts of grain at the Western ports has fallen to a low point as compared with last year, and the demand for money to move the crops is limited to small amounts. The Central Pacific Railroad bids fair to prove an unsually successful and profitable enterprise. In 1865, when there were less than 50 miles constructed, it carned over and above operating expenses, \$280,000 in gold; in 1866, with less than 100 miles constructed, it earned \$664, 200 in gold over expenses; in 1807, with less than 150 miles constructed, it earned \$1.087,000 above the operating ex penses, and in 1868, with less than 350 miles in operation, the net earnings exceeded \$1,457,000. This was upon local traffic exclusively, and justified the prediction that the Central Pacific would be remunerative from its way business alone. Since the completion of the through line, in May last, and the addition of business drawn from the Eastern lines, the business shows a large increase, even though the rates have been greatly reduced. The receipts for September foot up nearly \$600,000 in coin, and the average of the four and a half months since the junction, is upward of \$590,000 per month-or at the rate of \$7,000,000 per annum in coin, equal to \$9,000,000 currency value. Of this amount fully 70 per cent is found to be from local traffic, and the net earnings for the fiscal year promise to exceed \$3,000,000 in gold, over operating expenses. As the interest upon the Company's bonded debt is only \$1,000,000, their financial condition is The earnings of 10 railroads for the month of Septem,

7 PER CENT GOLD BONDS. Coupon or Registered. Free of Government Tax. Secured by First Mortgage on the NEW-YORK AND OSWEGO MIDLAND RAILROAD,

and by the additional guarantee of a paid-up capital of six million of dollars. Issue limited to \$20,000 per mile of road actually

built and in running order. The road is in course of thorough and rapid construction: 150 miles will be completed by 1st October next, and the entire line, it is believed, by the end of the ensuing year.

The admirable selection of the route for commanding both local and through business cannot fail to make it one of the best paying railroads in the country.

These choice securities are meeting with rapid sale at par and accrued interest in currency, at which price they are still offered. For further particulars apply to

GEORGE OPDYKE & Co., Bankers,

THE FIRST MORTGAGE BONDS OF THE UNION PA-CIFIC RAILROAD-CO., INTEREST 6 PER CENT IN GOLD. -Since the opening of the Pacific Railroad, May 10, its earnings have been at the rate of about Eight MILLION DOLLARS PER YEAR. The earnings for September were \$762,177 43. The First Mortgage Bonds of the Company amount to \$28,816,000, and the interest liability to \$1,728,960 gold, or about \$2,334,096 in currency. It will be noticed that the present earnings provide an ample fund for the payment of this interest and leave a large surplus. THE LAND GRANT BONDS, to the amount of Ten Million Dollars, were issued to obtain means to finish the road, and are secured by a First Mortgage upon the entire Land Grant of the Company, amounting to 13,824,000 acres. The sales of land were opened in Omaha July 27, and averages at the rate of \$200,000 per month.

THE LAND GRANT BONDS ARE RECEIVED in payment for all the Company's lands, at par, and the demand from actual settlers will give them a certain market. They run twenty years and pay seven per cent interest in currency.

Although the Company have disposed of all their bonds, yet, as they are offered in market, we continue to fill orders at the current rates.

We have no hesitation in recommending both the First Mortgage and the Land Grant Bonds as a very valuable and perfectly safe investment. John J. Cisco & Son, Bankers, 59 Wall-st., New-York.

THE KANSAS PACIFIC RAILWAY LOAN.-Secured by a Land Grant of Three Millions of Acres in Kansas and Colorado, a FIRST MORTGAGE upon the proposed extension of the great Kansas Pacific Railway from Sheridan, Kansas, to Denver, Colorado, and a mortgage upon the road now in successful operation for 437 miles, and earning more than enough to pay the interest on this new loan. This loan runs 30 years, pays 7 per cent; principal and interest PAYABLE IN GOLD. There is no better investment in the market. For maps, pamphlets, and circulars, address Dan-NEY, MORGAN & Co., No. 53 Exchange-place, and M. K. JESUP & COMP'Y, No. 12 Pine-st., N. Y.

The Louisville and Nashville Railroad is 367 miles long, cost (with equipment) \$15,286,000, and is doing a large and steadily increasing business, the earnings for August, 1869, being \$59,725 53 more than for the corresponding month of 1868. The road has a bonded debt of but \$2,364,000. To retire this debt at maturity, and to effect certain valuable extensions which will largely increase their business, the Company have mortgaged the entire road, rolling-stock, franchise, and income, to James Punnett and Junius B. Alexander of New-York, to secure the payment of eight million dollars of First Mortgage Bonds, which are now offered for sale at ninety and accrued interest. The bonds are for one thousand dollars each, have thirty years to run, and bear seven per cent interest annually, payable in April and October, at the Bank of America, in this city. The security is undoubted, and the bonds constitute a perfectly safe and very desirable investment. The agents of the company in New-York are Messrs. J. B. Alexander & Co., No. 19 Nassau-st., and John J. Cisco & Son,

Government Land Grant of Three Million Acres, extending, in alternate sections on either side of the track, from the 354th mile-post in Kanasa to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds themselves up to 120, or in U. S. Bonds.

A Sinking Fund for the Redemption of the Bonds The lands embrace some of the finest portions of the magnificent Ter ritory of Colorado, including a coal field and pinery. The Company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas, and although not pledged as a security for this Loan, their possession adds largely to the Company's weeth and credit. We estimate the Value of the Company's Property, covered by this mortgage, at \$23,000,000 net, while the Loan is merely \$6,500,000.
